Lactation Support Survey

The Worksite Workgroup and the Montana Nutrition & Physical Activity (NAPA) Program at DPHHS, along with the Montana State Breastfeeding Coalition are working to better support Montana worksites.

They are currently compiling an informal needs assessment on worksite lactation support. This assessment should take less than 10 minutes to complete. Your input is greatly appreciated and will help them to offer worksites better resources to support their breastfeeding employees. Please complete this survey by Friday, June 23rd.
